AMENDMENTS TO THE SPECIFICATION:**Please amend the fourth paragraph on page 2 as follows:**

Patent Application Publication No. 2000-235637 discloses automatic editing and edition of automatically generating high-quality digested moving pictures. However, the digested moving pictures ~~which~~ can be stored, although data area sizes of a header, an FAT, etc. of moving picture data is restricted ~~can be generated~~. Therefore, an editor has to determine the use of transitions on a joint between moving pictures.
